ITT Cannon LLC
56 Technology Drive
Irvine, CA 92618

Date: 9/25/26
Subject: Notice of Addition to Component Supply Source

Dear Valued Customer:

This Notice of Change in Component Supply Source is to inform you that ITT Cannon LLC ("ITT") is adding **Aerospace Contacts, LLC** ("AC"), an ITT affiliate located at **1343 N. Colorado St., Suite #107, Gilbert, Arizona 85233**, as an additional supplier within ITT's existing supply base for contacts, hardware, housings, and shells (collectively, "Components") used in its connector products.

ITT expects to begin using these Components in its connector products ("Affected Products") in **Q4 2026**. ITT's incumbent source(s) for the Components will remain qualified to maintain appropriate inventory coverage and supply flexibility. Adding AC to ITT's supply base is expected to benefit customers by enhancing supply continuity, increasing available capacity, and improving responsiveness to customer demand.

Please note that this change will not affect the form, fit, or function of the Affected Products. AC will manufacture these Components to the same released drawings and specifications currently in effect. All applicable specifications, qualifications, and quality requirements of the Components will continue to be met under AC production. In order to maintain the highest quality, ITT is performing First Article Inspections ("FAI") per AS9102 on Components manufactured by AC prior to shipping any Affected Products. AC holds AS9100 certification and utilizes NADCAP-accredited suppliers for applicable special processes.

For your reference, enclosed is a list of Affected Products that you have either purchased from ITT over the past 3 years and/or are in ITT's backlog as of the date of this letter.

If you have any questions, please contact your Regional Sales Manager.

Best regards,

ITT Cannon LLC
