Title / short description	Optimization of the locking latches in the hood of the SACB distribution boxes (SACB...PTP P12)
Affected article category	Sensor/actuator cabling
Change category	Form and appearance
Change number	CAF260073-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Product Improvement

Detailed description of the change

As part of our continuous improvement process, the geometry of the locking latches in the hood of the SACB...PTP P12 distribution boxes will be optimized. This modification improves the installation and removal of the PCB connectors for master cable connection by making it easier to latch and unlatch the connectors.
All other characteristics remain unchanged and are as specified in the technical data.
