

Positronic Amphenol

Product Line Card

Amphenol

TTI and Positronic Amphenol Deliver the Science of Certainty

TTI is excited to partner with Positronic and offer a wide range of world-class, high reliability connector solutions for your harsh-condition, military and aerospace applications. Whether D-subminiature, power, rectangular or circular, these precision connectors feature solid, machined contacts and PosiBand® technology, which separates mechanical and electrical functions for superior performance.

Reach your local sales team at +86 400-844-4868
or email us at FeedbackTTIAAsia@ttiinc.com

For more than 50 years, Positronic has led the marketplace with power and signal connector products and accessories. Now part of the Amphenol family with its exceptional technology and innovative solutions, connector engineers can look forward to the best of both worlds along with TTI Specialists for industry-best design assistance for deep and wide inventory of superior components.

D-Sub Portfolio

Standard Density

Size 20 machined contacts for general signal use in industrial, mil/aero and spaceflight

High Density

Size 22 machined contacts for general use in industrial, mil/aero and spaceflight

Combo-D

Mixed density D-sub to mix power, signal, coax, high voltage and fiber optic to use one connector in a limited space

Environmental

Sealed, IP67 Waterproof connectors designed to perform in harsh environments

Dual Port (Stacked)

Stacked right angle D-sub combine connector styles to save panel and board space

Hermetic

Feedthroughs for vacuum applications requiring hermetic sealing

Power & Hybrid Portfolio

Goldfish

A blind mating, low-profile power/signal connector commonly used in medical and computing industries

Dragonfly

Economical, miniature power/signal connector used for drones, automotive testing equipment, scientific testing and instrumentation systems

Power Connection System

Versatile power connectors utilizing size 16 contacts for all types of power supply applications

Great Golden

First generation modular connector ideal for ultra high-power in rugged environments

Compact Power

Plug-in power interface, commonly used in data or telecommunications

Scorpion

The most versatile power/signal connectors on the market

Circular and Rectangular Portfolio

Mini-Rectangular

High-density connectors for rack & panel or board-to-board applications

Rugged Rack and Panel

Robust connectors for rack & panel applications

Talon Mini

Quarter-turn, metal, high-reliability circular connector for power and signal use, including GbE

Baby King Cobra

Quarter-turn, economical circular connector commonly used in irrigation

Front Runner

Size 11 and size 19 composite circular connectors for medical, transportation, industrial control and avionics applications

THE SCIENCE
OF CERTAINTY®
