Re: Product Change Notification (PCN)

This letter is deemed confidential and should not be published.

The attached PCN form may be published and distributed to customers as needed.

PCN Description

This product change notice specifies a material change of the overglazing material as used on NPC-1210, NPC-1220, NPC-410 product families. Published performance specifications are to remain the same. No changes other than the material change noted are being made.

Please note that this change will temporarily impact lead time from 12-14 weeks to 20-22 weeks ARO. Lead time will return to normal following the completion of change.

As this lead time change extends availability, we ask that you prepare and adjust your order and shipment expectations accordingly.

Sincerely,

Dirk Lange

General Manager

Hi ,

From the series Part numbers mentioned in PCN notice, only below exact part number currently maintained in our system

Thanks

NPC-1210-015A-3-L

Capacitors
Circuit Protection
Connectors
Discretes
Electromagnetic
Electromechanical
Optoelectronics
Power
