Title / short description	V14 Push Pull Connector Laser Marking Change on Rear Housing
Affected article category	Connector
Change category	Marking
Change number	CAF260036-01
Reason for PCN/PDN Revision	

Purpose/objective of the change

Optimization of the product marking concept. The information previously applied directly on the product regarding manufacturing date and production order will in future be provided exclusively via the packaging label. Product traceability remains fully ensured and unchanged.

Detailed description of the change

Currently, the affected V14 connector variants include a laser marking on the rear housing containing manufacturing date and production order information.

With this revision, the laser marking on the rear housing will be discontinued.

The information previously applied directly on the product regarding manufacturing date and production order will in future be provided exclusively via the packaging label. All relevant manufacturing and batch information required for product traceability remains available on the packaging label. Product traceability remains fully ensured and unchanged.

No changes will be made to the dimensions, materials, electrical or mechanical characteristics, approvals, specifications, reliability, or functionality.

Identifying characteristics

The laser marking on the rear housing containing manufacturing date and production order information will no longer be present on future production batches. The change is immediately visible on the product. Please refer to the attached images showing the current and future product appearance.
