PCN

New sensor head material for all NTC sensors of series B57*M*

The current supplier of the sensor head material is no longer able to provide this material. To maintain continued supply chain stability and to meet customer demand, TDK needs to release an alternative supplier. The new material does not have any negative effects on product performance, quality, and lead time of the affected sensors. The only noticeable change is a slight variation in the color of the sensor head.

Product / Process Change Notification

1. ID No. T131-19		2. Date of announcement August 28,2026	
3. Product / product group NTC sensors B57*M* (M series)	Old ordering code See UPtoDATE	New ordering code No change	Customer part number N/A
4. Description of change Due to Product Termination Notification from current sensor head material supplier, TDK needs to release replacement sensor head material to maintain the supply chain for the customers.			
5. Effect on the product or for the customer (benefit, quality, specification, lead time) No negative effects on product performance, quality, and lead time of the finished goods listed. The color of the sensor head will slightly change. This does not affect the product specification.			
6. Quality assurance measures / risk assessment The reliability test for representative products has been performed in order to ensure the quality of the products. Lot by lot process controls and QA outgoing inspection according to control plan.			
7. Scheduled date of change December 14, 2026			
8. Estimated date of first delivery of changed product December 14, 2026 ex Batam If TDK Electronics AG does not receive notification to the contrary within a period of 10 weeks, TDK Electronics AG assumes that the customer agrees to the change. ☐ For an interim period we cannot rule out that old as well as new products will be shipped. ☒ Future shipments can consist of old and new products as the new changed product is used as an alternative to the old product.
