Description of Change: Final Inspection for the IGBRxxxxxxxSAST is changing from Sample Manual to 100% Automated Optical Inspection. In this change the defect inking process step will be removed from the process. Therefore, all shipments will not be inked, and defects will be per the process consolidated electronic wafer maps.

Reason for Change: Improved Quality to the customer and defect reduction from inking process.

Expected Influence on Quality/Reliability/Performance: Improved Quality and Reliability of the product.

Part Numbers/Series/Families Affected: Please see materials list on the succeeding page.
